

**Hear Technologies' Switch Back M8RX Now Shipping**  
*A preamp and multi-channel headphone monitoring interface*

**Sep 6, 2019**

Huntsville, AL – Switch Back M8RX, Hear Technologies' new pro audio tool, is now shipping across the globe! With robust capabilities and an intuitive design, Switch Back M8RX is actually two products in one. This gives the individual a choice to play live, record, or monitor their mix all in one single tool.

M8RX is a personal interface to be used for live sound or recording, and a multi-channel headphone monitoring system. Compact in size to fit any situation, M8RX gives individuals choices to use it in multiple ways, such as a mini recording studio setup or a simple communication system.

Switch Back M8RX has a total of eight channels of audio mixing: two studio-quality microphone preamps, two channel line-inputs, and four Dante network audio inputs/outputs. Hear Technologies proudly manufactures M8RX in the U.S. to ensure our customers get the quality they have come to expect.

**About Hear Technologies**

Hear Technologies offers unique and affordable solutions for personal and professional monitoring systems. We provide options for everyone – from beginners to seasoned pros. Our digital solutions give everyone the mix they need to perform their best. We design our products with the user in mind, so Hear gear is easy to use right out of the box, while providing the best sound in the business. Whether or not you've used a personal monitor mixer, the straightforward layouts of our powerful systems make getting the right mix a quick and effortless experience. Hear Technologies sets the bar high for quality sound, breaking new ground in the market to provide our customers with peak pro audio performance.
